Human Catastrophe & Medical Emergency in the Vanni

Heavy fighting and continuous multi-barrel artillery shelling has resulted in more than 300 internally displaced persons being killed and over 1000 hundred injured in Suthanthirapuram, Udaiyaarkaddu, and Vallipuram in the Mullaitivu District.

We are making an URGENT APPEAL to the Government of Sri Lanka, ICRC, the UN, and the international community for medical supplies and medical teams to be sent to the District to assist our staff. We currently only have 9 MMBS Doctors.

The nature of the injuries and the number of the injuries is such that if these medical supplies do not arrive in the next 24 hours many of the injured will die.
