Dear Mr. Michael Hawkes,

I understand from the Academic Secretary of the Academy of Science for Tamils in Ceylon that you will be too willing to help specific non-government projects in Sri Lanka. I wish to take this opportunity to seek your support for an ongoing project of ours at Kannaddy, in Ceylon. I am sending you herewith a report by Mr. Martain Walker of the Guardian who I am told is a member of your British Appeal Committee to help the recent cyclone victims.

I am also sending you a programmed estimate of cost for running the farm during the current year. We are in the midst of harvesting and require funds urgently to carry out this programme. I shall consider it more than a charity if you will help us with some funds to help the refugees we have settled in this farm.

Thanking you,

Yours sincerely,

N.Thirunesan
