LIBERATION TIGERS OF THAMIL EALAM

4th. August 1984.

TIGERS CONDEMN AIRPORT MASSACRE AS A CRIME AGAINST HUMANITY.

We the Liberation Tigers of Tamil Ealam are outraged and shocked at the devastating bomb blast at Meenambakam airport, that tragically killed and maimed several innocent people, while expressing our profound sympathy to the innocent victims of the explosion, we accuse the government of Sri Lanka and its allies of international subversion for this mindless massacre of innocent people.

We condemn this act as a horrendous crime against humanity. The sophisticated nature of the whole operation clearly indicates it is the diabolical work of the Sri Lanka government with the active connivance of the Israeli "MOSSAD" and the CIA to discredit and undermine the legitimate struggle of Ealam Tamils. This dirty work was primarily aimed at creating suspicion over the Tamil militant youths who have sought refuge in Tamil Nadu from the repressive Sri Lankan regime. The objective of this subversive agencies is to confuse the people of Tamil Nadu and seriously embarrass the govt. of India. Having failed in their persistent attempt to seek the extradition of Tamil youths whom they categorise as terrorists the Sri Lankan government has attempted this notorious plot to indict them with international terrorism.

We firmly believe that the Israeli MOSSAD who are highly experienced in such acts of sabotage and subversion is behind this whole episode. The arm of global imperialism and Zionism has reached out to South Indian city in the form of terrorist attack aimed at systematic destabilisation of the Indian Nation.

We call upon the government of India and the people of Tamil Nadu to be alert, not to be confused over the vicious campaign of forces of reaction. We are confident that our brethren in Tamil Nadu will stand firm in their support for the pathetic plight of the Tamils in Ealam.
