## **Listing of Non Agricultural Economic Activities - 1995 (Primary data based on summary report)**

### **A. Introduction**

Listing of Non Agricultural Economic Activities was conducted in stages in Rural Sector covering all districts except the districts in Northern & Eastern provinces. The main objective of this exercise was to identify the building material producing units and to compile the value of construction output of the housing sector as required by ICTAD. However, in order to make the exercise complete all non agricultural activities were enumerated.

A Grama Niladari Division or a part of a GN Division was considered as an enumeration area and enumerators were appointed by the Divisional Secretary of the area. The enumerator prepared a list of non agricultural economic activities by visiting each and every building in the enumeration area under the supervision of District Statistical Staff and the Head Office Staff.

An enumerator is assigned to each enumeration area which is usually a Grama Niladari Division (GND). When the GND is spread over a larger area or has a large number of housing units/buildings, the GND is divided into two enumeration areas.

The enumerators were asked to complete one line in the listing form (L) for each housing unit/building with the following information.

1. Name of the owner proprietor of the enterprise/chief occupant
2. Postal address
3. Nature of the unit
4. Type of Economic activity
5. Type of construction activity
6. No. of residents

If the housing unit/building was having the activities on

1. Mining and quarrying

3. Electricity, Gas and Water

The following further information is inserted to the L1 form.

2. Expenditure/Estimated expenditure done during the period
3. Source of funds

### **D. Summary Preparation**

The enumerators were to use the information collected by the forms L, L1 and L3 and fill the summary information for the enumeration area in the front page of the L form which included, the following information.

2. Number of Industrial establishments
3. Number of Trade and Service establishments
4. Number of Buildings Built during the reference period
5. Average Number of Persons

These summary information were checked by the Statistical Investigator who was attached to the relevant Divisional Secretary Division and a Divisional Secretary Level Summary was prepared. Such summaries were checked by the District Statistical Office and sent to the Head Office for the preparation of this report. However there may be computational errors or extraction errors associated with these information and should be treated as provisional.

All the tables given in this publication has the same layout, i.e, Number of houses, Number of Industrial establishments, Number of Trade and Service establishments and population classified by either District or by Divisional Secretary Division. Therefore the Table Headings are reduced to express the cross classification.
